Poised For Climax:

Rome, Sept. 9 (AP)-American Seventh Army forces, driving rapidly northeast through the Doubs river valley from Besancon, have reached a point less than 25 miles from the Belfort Gap route into southwestern Germany, Allied headquarters announced today.

Already they had covered at least half the distance between Besancon and the city of Belfort, Allied headquarters announced.

An Associated Press dispatch from the French-Swiss frontier last night said three Allied motorized columns were approaching the city, with the most advanced only 10 miles distant. This dispatch said Allied artillery opened up on the city as early as 4 a. m. yesterday. t"Germans in strength in good positions, appeared determined to defend the Gap," the dispatch

(By The Associated Press) London, Sept. 9—American First Army troops who captured the Belgian fortress city of Liege drove to within 18 miles of the German frontier in the vicinity of Azchen today as three other Allied armies backed through the last thin strips of Belgium and France before the enemy's Siegfried Line.

Moscow, Sept. 9 (AP)-A Red Army offensive through Bulgaria, coupled with the combined operations of Marshal Tito's partisans and Allied Commando units in Yugoslavia, appeared likely today to free the Balkan peninsula entirely of Germans in less than a week.

At the same time a Russian armored force driving "downhill" from the strategic heart 128 miles of the flat open frontier of Hungary.

Bulgaria's declaration of war on Germany persuaded the Soviet Union to accept Sofia's request for an armistice, and Russian veterans who moved into Bulgaria from Romania on a 135-mile front greeted the Bulgars as brothers in arms.

Front dispatches said no hostilities jarred the Russian advance across Bulgaria, which followed the capture of two big ports, Ruschuk (Ruse) on the Danube and Varna on the Black Sea. Presumably the Bulgarian be assigned an active role in the Balkan cleanup.
